-01			

The valuation since 1875 is the equalized valuation fixed by the state board of equalization. From 1867 to 1875 the valuation was made by the city for the city tax. From 1898 to 1908, inclusive, the assessed value was one-fifth of the actual value. In 1909 the rate was fixed at one-third and in cludes capital stock and railroads.

# ASSESSMENT OF TAXABLE PROPERTY IN COOK COUNTY.

Includes equalized valuation of railroads and capital stock of corporations.

1904 \$437,850,476+1913\$1,056,910.6	
1905 441,990,246 1914 1,078,824,2	61
1906 461,813,707   1915 1,121,649,9	54
1907 514,757,122   1916 1,115,035,4	41
1908 514,730,532 1917 1,148,893,4	98
1909 987,212,850   1918 1,170,142,2	68
1910 915.895.947   1919 1,792,526,3	43
1911 997,787,837   1920 1,797,265,7	70
1912 1,012,882,262 1921 1,853,602,0	81

The above figures are one-fifth of the actual valuation down to and including 1908. The rate was changed to one-third in 1909 and to one-half in 1919.

#### CITY CLERK'S OFFICE. City hall, first floor, south end.

City hall, first floor, south end.

City Clerk—James T. Igoe, D.

Chief Clerk to City Clerk—Edward J. Padden.

Duties—The city clerk is the official keeper of
the corporate seal of the city of Chicago,
and hence most of the city licenses (which
have the corporate seal affixed) are issued
through the city clerk's office. The city
clerk keeps the records of the city council
and publishes the journal of the council's
proceedings, printed copies of which are distributed free of charge to the public. All
originals of ordinances and other matter
passed or otherwise disposed of by the council are on file in his office. The city clerk
is, by law, the secretary of the board of
trustees of the firemen's pension fund.
State hunting and fishing licenses are also
issued through his office.

CITY TREASURER'S OFFICE.

City hall, second floor.

Hours—9 a. m. to 5 p. m.; open to public
10 a. m. to 3 p. m.
City Treasurer—Clayton F. Smith, D.

Assistant-Joseph Rushkewicz.

Chief Clerk—Albert J. Keefe.
Chief Cashier—J. C. Smith
Duties—The city treasurer is an elective, charter officer of the city of Chicago; he is also
school treasurer of the city of Chicago; school treasurer of the city of Chicago: treasurer of the firemen's pension fund, public school teachers' pension and retirement fund, public school employes' pension fund, public library employes' pension fund, municipal pension fund of Chicago, and house of correction employes' pension fund. The treasurer receives all moneys belonging to the corporation, deposits the funds in bank, keeps separate accounts of each fund or an keeps separate accounts of each fund or appropriation. He is the custodian of the taxes, license fees and all other moneys and securities belonging to the various funds of which he is the treasurer. All disburse-ments of funds are made by the treasurer on warrants signed by officials who are

designated by statute.

The legislature, by statutory enactments, requires the city treasurer to render reports at stated periods showing the condition of the treasury of the city and the balance of money in the treasury, and to make such additional reports as the city council from time to time shall require. For this reason and for the further purpose of supervising and limiting expenditures to the amounts appropriated by the city council for each object and purpose, the treasurer is by statute required to keep the accounts of all funds or appropriations and of the devits and credits pertaining thereto. The city's books and accounts must be kept open by the treasurer for in-spection by the committee on finance and all members of the city council whenever information concerning the city's financial affairs is required.
s school treasurer he is required by

state school law to keep books and account concerning the financial affairs of the board of education, including a record of the revenues collected from taxation or received from the state common school fund. etc., and to make reports at stated periods concerning the state of the school treasury and the balance of money in that treasury at the time such reports are made. His books and accounts concerning school mat-ters must be kept open for inspection by the members of the board of education whenever information concerning the financial affairs of the board of education is required. His bond at the present time is required. His bond fixed at \$2,000,000.

# CITY COMPTROLLER'S OFFICE,

Room 501 city hall. Comptroller—George F. Harding, R. Deputy Comptroller—Louis E. Gosselin, D. Chief Clerk—C. J. O'Connor, R.

Duties—The comptroller is at the head of the department of finance, of which the treasurer and collector are also members. He is charged with a general supervision over all the officers of the city who take in or pay out city money. He is the fiscal agent of the city and as such has charge of deeds, mortgages, contracts, etc. He audits and settles claims, keeps a record of persons committed to the house of correction, with fines, etc.: keeps books relating to appropriations, makes the annual estimates, signs warrants upon the city treasury, etc.

HOUSE NUMBER SYSTEM IN CHICAGO.

HOUSE NUMBER SYSTEM IN CHICAGO.
The present house number system in Chicago was established by an ordinance passed June 22, 1908, and effective Sept. 1, 1909. This applied to all streets except those between the river, 12th street and the lake. Sept. 20, 1910, the city council passed an amendment to the ordinance making it applicable to the entire city. The change in business district went into effect April 1, 1911. The system is laid out on two base lines, State street dividing the east and west streets and Madison street the north and south streets. Numbers are assigned on the basis of 800 to the mile or 100 to the prevailing block of 660 feet or one-eighth of a mile. | 4300 | Byron. | 430 | Vernon-av. | 500 | Vincennes-av. | 533 | Rhodes-av. | 4400 | Montrose-av. | 4400 | Montrose-av. | 4500 | St. Lawrence-av. | 4500 | St. Lawrence-av. | 4500 | Wilson-av. | 4500 | Wilson-av. | 4500 | Wilson-av. | 4800 | Lawrence-av. | 4800 | L

nile.

## CHICAGO BRIDGE SYSTEM.

CHICAGO BRI
The first ferry across the river was established in 1829, where the Lake street bridge now is, In 1833 a floating bridge of logs was in operation just north of the present Randolph street bridge. A foot bridge over the north branch was built in 1832 at Kinzie street. The first drawbridge over the main branch of the river was placed at Dearborn street. In 1834. In 1854 a pivot bridge was built at Clark street. These and other bridges of that time were built by the persons most directly benefited by them. It was not until 1857 that a bridge was built entirely at the city's expense. This was the structure over the south branch at Madison street. It cost \$30,000. Until 1872 the swing bridges were turned by hand, but in the year named steam power was installed on the Dearborn street structure and later most of the other bridges

in the downtown section were similarly equipped. In 1895 the Rush, Lake and Van Buren street bridges were operated by electric motors. The last named structure, which was opened for traffic in that year, was the first of the Scherzer rolling type. The Halsted street lift bridge, the first and only one of its kind, was opened in 1894 and was operated by steam. It cost the city \$242.880.

In 1922 Chicago had forty-seven bridges with movable spans and thirty with fixed spans. There were also thirty-nine viaducts and eight foot bridges. Most of the movable bridges are operated by electricity. Buren street bridges were operated by electric

foot bridges. Most of the movable bridges are operated by electricity. The Franklin-Orleans bridge was opened to traffic Oct. 23, 1920. With its approaches it cost nearly \$2,000,000. The Wells street bridge was completed in 1921 and the Madison street bridge in 1922.

### CHICAGO PARKS AND BOULEVARDS.

LINCOLN PARK SYSTEM.

Commissioners (appointed by governor with consent of senate)—Eugene R. Pike, Mrs. Helen T. Pelouze, Samuel Gassley, John A. Torstenson, Robert H. Morse, Charles I.

Torstenson, Robert H. Morse, Charles I. Pierce, Harold N. Scott.
Officers—President, Eugene R. Pike; vice-president, Harold N. Scott: auditor, Charles I. Pierce; secretary and superintendent, William H. Wesley; attorney, Jay C. McCally; treasurer, William J. Fickinger.

Office-In Lincoln park near Clark and Center

The Lincoln park district consists of the towns of North Chicago and Lake View, with Fullerton avenue as the dividing line, and is bounded on the north by Devon avenue, on the south by the Chicago river, and extends from Lake Michigan on the east to the north branch of the river and North Western avenue on the west.

The area of the Lincoln park district is 12.64 square miles. The total area of the parks and boulevards is 642.63 acres, with 11.755 miles of boulevards. The area of Lin-

coln park alone is 518 acres.

Lincoln Park—Lincoln park, previously known as Lake park, began its history under its present name by resolution passed by the common council of Chicago under date of June 5, 1865. The park proper is 317 acres in extent and extends from Diversey boulevard to Oak street along the lake front. To this 200.59 acres of land has been added by filling in Lake Michigan north of Diversey boulevard. This extension contains a 57 acre yacht harbor. The park contains a large floral department, also an extensive zoological garden containing about 1,800 ani-Boating and bathing facilities are mals. mais. Boating and paining ractimes are furnished and the park lagoon—one mile in length—gives an admirable course for racing. The Academy of Sciences is located in the park at the foot of Center street. This building was erected in 1893 and contains beaut 252 000 specimens. It is noted for its building was erected in 1893 and contains about 250,000 specimens. It is noted for its collection of local natural history specimens and for its complete collection of mollusks. The park has provided facilities for outdoor games during both the winter and summer seasons.

Stanton Park—At Vedder, Vine and Rees streets: area 4.78 acres; equipped with field-house and outdoor gym facilities. Lake Shore Playground—Area 9.16 acres: is Vine

situated between Pearson street and Chicago avenue, extending from the Chicago avenue pumping works to the lake. This park is fitted up as a playground, containing a shelter bouse, and with outdoor and indoor gymnasium apparatus.

### SMALL PARKS, PLAYGROUNDS AND BATHING BEACHES.

Bureau of Parks, Public Playgrounds and Bathing Beaches.

Secretary—Walter Wright.
Superintendent of Playgrounds—T. A. Gross Director in charge of beaches and pools-T. R. Daly.

Director in charge of activities-H. J. Fisher. Director in charge of maintenance-F. K. Kai-

Chief Clerk-P. J. Lynn.

Chief Clerk—P. J. Lynn.
Office of the bureau—1004 city hall.
The bureau of parks, public playgrounds and bathing beaches is a bureau of the department of public works. It maintains and has jurisdiction over seventy-three municipal playgrounds, five bathing beaches, four natatoriums, seventy small parks, city forestry or street trees and Gage farm nursery,

The playgrounds are open all year around

from 8 o'clock in the morning until 9 o'clock at night and each is in charge of a director and attendant, and during the spring, summer and fall a young woman assistant director or physical instructor.

The small parks vary in size from a beauty spot of one-tenth of an acre to a forty acre park and are used to give every possible means of recreation to the people. Play apparatus, tennis courts, wading pools, etc., are estab-

lished wherever possible.

Following is a list of the small parks, playgrounds, bathing beaches and natatoriums under the jurisdiction of the bureau of parks, public playgrounds and bathing beaches, with the area of the parks in acres and size of the playgrounds:

#### Small Parks.

### THE MORTON ARBORETUM.

On Nov. 14. 1921, Joy Morton of Chicago announced that he had set aside 400 acres of land owned by him in DuPage county as an arboretum for the benefit of the people of Chicago and vicinity. It is expected that it will be open to the public in two years. The work of preparing the grounds is in charge of O. C. Simons. In a memorandum announcing the project Mr. Morton said. ton said:

"The site of the proposed arboretum lies in DuPage county, ten miles due west of the new zoological gardens in Riverside. It con-

sists of a wide valley through which runs the east firk of the DuPage river, bounded by hills wooded with splendid specimens of native trees and shrubs. The Kew gardens in London, the Jardin des Plantes in Paris, the Tervuern in Brussels, the Arnold arboretum at Boston and Shaw's garden in St. Louis have been desirable features will be incorporated in the new arboretum." new arboretum.

The arboretum is to be endowed by the donor and will be known by his name.

#### RATES OF FARE FOR TAXICABS.

Fixed by Chicago city ordinances. Sight-seeing cars and autobuses having a capacity of eight persons or more not included. Sight-

I. Rates by Distance. For first half-mile (or fraction there-

of) for one person..... ..40 cents For each succeeding quarter-mile (or ..10 cents fraction thereof)..... For each additional person for the

fraction thereof)......10 cents Waiting time shall include (a) the time durwatting time shart include (a) the time during which the taxicab is not in motion, beginning ten minutes after call time at the place to which it has been called; (b) the time consumed by unavoidable delay at street crossings or bridges, and (c) the time consumed while standing at the direction of the

No charge shall be made (a) for time lost for inefficiency of the taxicab or its operator. or (b) for time consumed by the premature arrival in response to a call.

II. Hour Rates.

For trip of two miles or more, ar seating two persons, \$2.50; minimum charge for trip, \$1. Seating three to five persons, \$3.50; minimum charge for trip, \$1.50.

Car

charge for trip, \$1.50. Seating more than five persons, \$4.50; minimum charge for trip, \$2. Where the trip is for two miles or more and the passenger at the time of hiring any such vehicle expressly elects, as such passenger may do, to pay therefor by the hour, the operator

in charge of such vehicle shall supply the passenger with a card upon which shall appear the name of the owner, the name and license number of the operator and the exact time of the hirins; and the charge for such service, in the absence of such express agreement, shall not exceed the rates prescribed above as the "hour rate."

The rate of fare to be asked or demanded for such vehicles shall be determined in ac-

cordance with the time which the vehicle is in use by the passenger or passengers en-

gaging the same.

In determining the seating capacity of any such vehicle neither the operator's seat nor any portion thereof shall be computed, but the said capacity shall be determined by the numthe interior or tonneau of such vehicle.

No charge shall be made for the time con-

sumed in responding to a call or in returning to the place from which such vehicle is called.

Baggage—Every passenger upon any public automobile, autocar or other similar vehicle shall be allowed to have conveyed with him upon such vehicle, without extra charge therefor, his ordinary light traveling baggage in an amount not to exceed fifty pounds. A fee of 20 cents may be charged for conveying a trunk.

Lost Baggage—Whenever any package, arti-cle of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, the operator of such vehicle shall, upon discovery of such package, baggage or goods, forthwith deliver the same to the vehicle bureau, department of police.

#### MUSIC IN CHICAGO.

### CHICAGO SYMPHONY ORCHESTRA.

Founded by Theodore Thomas.

The Theodore Thomas orchestra was organized in Chicago in 1890-1891 by a number of men interested in promoting the highest class of instrumental music. The Orchestral association was incorporated Dec. 16, 1890, and Theodore Thomas, famous for many years as a conjustor was engaged to lead the new ora conductor, was engaged to lead the new organization, which was then named the Chicago orchestra. The preparations were completed orchestra. in 1891 and the first public rehearsal was given at the Auditorium Friday afternoon, Oct given at the Auditorium Friday attention, 16, of that year. Financially the result of the first season was discouraging, the fifty of the expenses bemore gentlemen guaranteeing the expenses ing compelled to meet a deficit of about \$53,000. Receipts, however, continued to increase from year to year until the orchestra was finally placed on a permanent basis. This was accomplished where the property of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second o Inally placed on a permanent basis. This was accomplished when Orchestra hall, erected by subscriptions from more than 8,000 persons, was completed at 220 South Michigan avenue, and the organization was provided with a home of its own. The first concert there was given Wednesday evening. Dec. 14, 1904. Theodore Thomas died Jan. 4, 1905, and the orchestra, which until then had been called the Chicago preserts was apped the Theodore orchestra, which until then had been called the Chicago orchestra, was named the Theodore Thomas orchestra. Feb. 24, 1913, the title was changed to the Chicago Symphony orchestra (founded by Theodore Thomas). Frederick Stock, after the death of Mr. Thomas, was made conductor. The plan of giving two performances a week—a public rehearsal on Friday afternoon and a concert on Saturday evening—has been followed from the beginning. The season consists of twenty-eight weeks The season consists of twenty-eight w beginning in October and ending in April.

The first officers of the Orchestral association were: N. K. Fairbank, president; C. Norman Fay, vice-president; P. A. McEwan, treasurer and secretary; Milward Adams, manager.

#### THE CHICAGO TEMPLE.

1922. the being On Sunday afternoon, Nov. 5, 1922, the corner stone of the Chicago Temple, being erected by the First Methodist Episcopal church of Chicago, was laid with appropriate the! exercises. In the course of an address George W. Dixon, president of the board of trustees of the church, said:

"The day of first things is always of su-preme interest. Chicago had a Methodist church long before it had a city charter. The The first Methodist sermon was preached in Chicago in 1828. The first Methodist church was organized June 16, 1831, by the Rev. Stephen Beggs with ten members in a log house near Canal street and Wolf's point. The first canal street and Woll's point. The first Methodist Sunday school was formed in 1834. The first Methodist church building was of logs and was put up in 1834 at North Water and Clark streets at a cost of \$580. In 1839 this structure was moved across the river on scows to the lot at South Clark and Washington streets which is still owned and according scows to the lot at South Clark and Washington streets, which is still owned and occupied by the society. In 1845 the original structure was replaced by a brick one at a cost of \$12,000. In the year 1857, by act of the legislature, the charter was enlarged to enable the society to erect a building partially for commercial purposes, and in 1858 a composite building was erected at a cost of \$70,000. The structure erected in 1858 stood until destroyed by fire in 1871; then the fatil destroyed by fire in 1871; then the fa-meus old First Methodist church block was contracted for April 30, 1872, at a cost of \$130,000.

"In 1903 the legislature of the state of Illinois passed the Dixon act, which finally permitted the demolition of the historic Illinois passed the Dixon act. Which historic church building May 1, 1922, which had stood for fifty years, and the building of this new institution, the Chicago Temple, the corner which we lay fo-day. stone of which we lay to-day.

"The new First Methodist church now under construction is a rebirth, a resurrection and a new life. In planning our church quarters we had in mind a program for the future, covcring the needs of a large seven-day-a-week city church. Chicago has become the fourth largest city in the world. The ratio of its present population to that of 1858 represents the magnitude of our present problem.

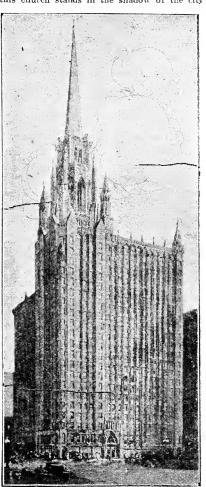

"In this new building the auditorium will be on the street level. It will be one of the most churchly auditoriums human ingenuity can devise. Underneath the auditorium there will be a gymnasium and other facilities appealing to young life. Gentain floore above will be deto young life. Certain floors above will be deroted to Sunday school and other religious educational work. There will be a complete kitchen and rooms to accommodate dinner or banquet for over 400 people.

"The temple will be a school of Americanism, a great social center, a haven for the hundreds of young people that come into Chicago every year and a great spiritual shrine for worship. It will be a great magnetic dynamic moral and spiritual contar in shrine for worship It will be a great magnetic, dynamic, moral and spiritual center in the heart of Chicago. It will point men to the spiritual, remind them of God and His claims upon their life. It will have wide-open doors day and night for the young manhand and young women head and young manhand and young manhand and young manhand and worship. hood and young womanhood pouring from the country into the city every week of the year. Its hospitality will be as wide as the hospitality of heaven."

Following are brief extracts from an address made by Gen. Charles G. Dawes on the same occasion:

"It is not an accident that this church is here to-day over eighty years from the time it was started here. \* \* \* While all the other churches have moved farther out this

church has stayed here. You have got to ascribe it to the far-sightedness, to the earnest-ness of those original founders of the church who wanted to keep it as near as they could to the city capitol. There is one thing more fitting to say than what the mayor said-that this church stands in the shadow of the city

THE CHICAGO TEMPLE.

capitol-and that is that the city capitol stands

capitol—and that is that the city capitol stands in the shadow of this church.

"The danger of the world is the crowd, the crowd snirit, the masses of men who reason as crowds reason, from the neck down, who can be led by the man with a torch, who can be led against the doors of the jail, to overturn the orderly processes of law. That is the

danger to-day, and, as Le Bon says, the only thing which has protected the growth of civilization from the mob leaders has been the family and the church. And it is by no accident that this great Methodist church starts this occasion by singing 'America.'

"The Methodist church stands for the constitution of the United States. It acknowledges the debt of this great country to its fore-

fathers."

# DESCRIPTION OF BUILDING.

The Chicago Temple building, designed by Holabird & Roche, architects, contains a basement and twenty-one stories, the full height of allowable construction. The first floor is devoted to shops and the church purposes, the second to church activities and the nineteen upper floors to offices of the highest character. The whole is surmounted by a tower with its center on the center line of the Washington street frontage. In planning the building it was essential to so arrange it as to obtain the maximum return on the investment and still provide adequate facilities for the church The auditorium required (that is, activities. 1,300 seats) was of such size as to necessitate its location on the first floor, but it had to be its location on the first floor, but it had to be so arranged as to leave a continuous line of stores on the two street frontages. It was determined, consequently, to put the auditorium in the southeast corner of the lot, as far back as possible from the Clark street frontage. The natural position for the elevators for the office building on the east property line near Washington street established the office building entrance at that noint. There office building entrance at that point. There are eight high-speed gearless elevators. The entrance to the church is at the north end of the auditorium on Clark street. The arrangement thus determined permitted five shops on Clark street twenty-six feet deep and nineteen feet wide between the alley and church entrance. The space at the corner defined by the two streets, the office building and church lobbies is available for rental and constitutes a single area of about 3,400 square feet. The clear floor height in the stores is such as to permit a partial mezzanine. All shops have a maximum area of clear show window. The balance of the floor is occupied by the audi-torium, which will seat 830 people on the main floor and 470 in the balcony, or a total of 1,300.

The basement is devoted to a recreation room for church social service work, storage space for the stores and mechanical plant, while the second floor is entirely occupied by Sunday school rooms, clubrooms and social rooms and contains the lobby for the balcony auditorium. Inasmuch as the auditorium extends through the third floor and the court begins at the fourth floor only, the street frontages only on the third floor are available for offices.

The first typical office building floor, of which there are eighteen, begins at the fourth floor level. The typical floor office space averages twenty-six feet in depth on the street frontages, twenty-one feet on the alley and eighteen feet on the west and south sides of the court. The court is sixty-seven by twenty-five feet. The column spacing is so arranged that the majority of the space on Clark street is free of columns, allowing a maximum freedom in subdivision.

The exterior of the building follows in detail and character the French Gothic architecture of the thirteenth and fourteenth centuries. The two lower floors are so designed as to provide maximum glass for stores and shops. In that portion of the building south of the church entrance the main vertical piers of the building rise at the sidewalk line. To the

north of the church entrance, or directly under the tower, the first and second floors are simply treated, with windows and store fronts cut in a plain well of ashlar. The office building entrance is expressed with an unornamented two-story doorway. In order to attach more importance to the church entrance and as an expression of its special use this opening has been more elaborately treated and ornamented and is somewhat religious in character. The vertical piers of the building continue to the main parapet above the second floor and are broken only by two pylons on each street front which serve to support and carry down to the ground the weight of the tower.

The tower extends from the 260-foot height (that of the main portion of the building) to a height of 400 feet, or a total of 140 feet in all. It is not only faced with stone on all four sides but the same design and ornamentation adopted on the street fronts is continued on its east and west faces. The form of the tower is octagonal, braced with buttresses and flanked by pinnacles. It diminishes from 82 feet at the base to about 30 feet at the top. It will be illuminated at night and a beam of light will be thrown outward from the top. This tower will unquestionably dominate the silhouette of the loop and will reach the highest level of any building yet designed in the city. The tower will have an elaborate set of chimes, which will be heard for miles around.

The facing material of the building used throughout is variegated Indiana limestone. The building and tower are extensively ornamented and there is a considerable amount of appropriate carving. As to the interior finish, the walls of the offices, building, vestibule and elevator lobby are entirely treated in Batesville stone carved and ornamented. The elevator inclosures are of hollow tile, with Batesville stone facing and ornamental bronze elevator doors. The ceiling of the vestibule is vaulted. The elevator lobby has a beamed ceiling painted in brilliant colors. The floor is of Belgian black marble, with Batesville marble inserts forming a pattern. The typical elevator inclosures and lobbies are of hollowtile partition, faced to the ceiling height with Batesville marble. The elevator doors are ornamental iron and wire glass. Typical corridors are wainscoted with Alabama marble to the height of the doors. The doors and trim are of brown mahogany. The floors in all the typical lobbies and corridors are of Carthage marble. Tollets are finished with Alabama marble wainscot in stalls and Ohio flint in floors. The trim throughout the building is brown mahogany.

The church lobby and vestibule are of Bedford stone throughout with the exception of the ornamental plaster ceilings decorated in gold and blue in the lobby. The auditorium is entirely paneled in red oak, bleached and weathered, with open timber roof. The floor will be carpeted. This auditorium is to be provided with a \$50,000 organ.

The total cost of the Chicago Temple will be about \$3.500.000. The property fronts 80 feet on Washington street and 182 feet on Clark street, at the southeast corner of their intersection. There is an 18-foot alley on the south.

The chairman of the building committee is George W. Dixon, and the board of trustees consists of the following:

George W. Dixon, A. W. Harris, W. W. Dixon, Horace A. Goodrich, F. J. Thielbar L. E. Larson, W. T. Smith, Simon P. Garr, M. A. Allen, D. C. Alton, John Thompson. Lester Lee, W. F. Wlenecke.

Other	11,041		1,041

\*Does not include 587 prisoners on Georgia state prison farm. †Includes 5.604 prisoners

in chain or road gangs in Georgia and the 587 prisoners on the state farm. Certain religious or charitable institutions to which woman offenders are committed by the courts.

## RESIGNATION OF SENATOR T. H. NEWBERRY.

Truman H. Newberry, United States senator from Michigan, resigned his seat Nov. 18, 1922, and ceased to hold office Nov. 21. In the election of 1918 it was charged that he spent an unusually large amount of money to win, thereby violating the election laws. He was brought to trial on this charge and convicted March 20, 1920. A sentence of two years in prison and the payment of a fine of \$10,000 was imposed upon him. He appealed to the United States Supreme court, which, on May 2, 1921, set the verdict aside. An effort was made to unseat him from the United States senate, but that body on Jan. 2, 1922, by a vote of 46 to 41 declared him entitled to hold his place. He resigned on the ground of continued persecution by his political enemies. ical enemies.

Mayor James Couzens of Detroit was ap-

pointed United States senator by Gov. A. J. Groesbeck of Michigan on Nov. 29 to succeed Truman H. Newberry.

#### GARNISHMENT LAW OF ILLINOIS.

Section 14 of the act of 1872 as amended in 897 and 1901 declares: "The wages for 1897 and 1901 declares: "The wages for services of a wage earner who is the head of a family and residing with the same, to the amount of fifteen (\$15) dollars per week. amount of fifteen (\$15) dollars per week. shall be exempt from garnishment. All above the sum of fifteen (\$15) dollars per week shall be liable to garnishment."

Employers are obliged to pay wages amounting to \$15 or less, notwithstanding the service of a writ of garnishment, providing the person to whom wages are due makes affidavit that he is the head of a family and is living with

the same.

#### ILLINOIS SALARY INCREASES HELD VOID.

The Illinois Supreme court handed down a partments and various superintendents and decision Feb. 22, 1922, holding certain salary increases voted by the legislature in 1921 illegal because they were made after the terms of office of the beneficiaries had begun. The decision affected the salaries of several directors and assistant directors of state de-days of the salaries of several directors of control of the decision were secured through suits filed by the Citizens' decision of Chicago.

#### HOMES IN CHICAGO AND THEIR OWNERSHIP.

According to the federal census bureau the number of homes in Chicago, as enumerated in January, 1920, was 623,910, of which 165,866, or 26.6 per cent, were owned by the occupants, and 447,405, or 71.7 per cent, were rented; for the remaining 10,639 the facts as to tenure were not reported. Of the owned homes 58,382, or 35.2 per cent, were free from incumbrance and 102,719, or 61.9 per cent, were mortgaged; for the remaining 4,765 no information as to mortgage indebtedness was secured. ness was secured.

The bureau of the census secured reports regarding the value of the home, the amount of the incumbrance and the rate of interest from 76,573, or 74.5 per cent, of the 102.719 mortgaged homes enumerated in the census. The average market value of the mortgaged homes was \$6,460, and the average mortgage was \$2,734. Assuming that the average value and the average mortgage debt for the homes not reporting was the same as for those for which reports were secured, the total market value of all mortgaged homes in Chicago was estimated at \$664.000.000 and the total mort-

gage debt at \$281,000,000.

The prevailing rate of interest was 6 per cent, this being the rate reported for 83.9 per cent of the total number of homes reported as mortgaged and 81.6 per cent of the total amount of mortgage indebtedness. Five total amount of mortgage indebtedness. Five and one-half per cent was the rate on 9.6

per cent of the total number and 5 per cent was the rate on 3.1 per cent of the total number of mortgaged homes reporting. From 5 per cent to and including 7 per cent formed 98.7 per cent of the number of homes reporting the period of the number of homes reporting the state of incomplement on their extractions. 98.7 per cent of the number of nomes reporting the rate of incumbrance on their mortgage debt. For the remaining indebtedness other rates were reported, ranging from less than 5 per cent to more than 8 per cent. The average rate on all mortgages was 5.9 per cent.

Of the 76,573 mortgaged homes concerning

Of the 76.573 mortgaged homes concerning which information was secured 5,099, or 6.7 per cent, were valued at less than \$2,500; 30.127, or 39.3 per cent, at \$2,500 to \$5,000; 22.100, or 28.9 per cent, at \$5,000 to \$7.500; 9.444, or 12.3 per cent, at \$7,500 to \$10,000; 5.721, or 7.5 per cent, at \$10,000 to \$15,000; and 4,082, or 5.3 per cent, at \$15,000 and over. Of the latter number 1,308, or 1.7 per cent, were valued at \$25,000 and over. As a rule the greater the value of the home the smaller the proportion which the incumbrance represents of the total market value, this proportion ranging from 38.8 per cent for homes valued at \$15,000 to \$20,000 each to 50.2 per cent for those valued at less than \$2,500. On homes valued at amounts of more than \$25,000 the incumbrance amounted to \$22,468,190, forming 41.9 per cent of the market value on January 1, 1920

#### ELEVATION OF CHICAGO AND LAKE MICHIGAN.

Mean sea level or mean tide at New York is. Mean sea level or mean tide at New York 18. the standard plane to which all elevations in the United States are referred, and the figures here given are heights above that plane. They are from the official records of the United States lake survey which have been maintained since 1860. The monthly mean surface of Lake Michigan has varied from 583.57 in June. 1886, to 578.98 in December, 1895. The annual mean surface has varied from 582.96 in 1886 to 579.47 in 1896.

The actual fluctuations in water surface from

The actual fluctuations in water surface from which these means are obtained have a much which these means are obtained have a much larger range and the immediate change in a few hours is often as great as two feet. The mean level of Lake Michigan from 1860 to 1914 (the average of all monthly means) was 581.20, and for the period from 1860 to 1875 it was 581.63, indicating that the mean level remains about the same, although the daily, monthly and annual fluctuations may be

quite large. The highest known monthly mean was in 1838—584.7—and the lowest was in 1819—578.0—these being somewhat indeterminate. The United States lake survey has adopted as a standard low water for reference of soundings on its charts 578.5, a little higher than the lowest eyer known as a monthly mean.

mean.

The Chicago city datum is 579.94 and this plane is used in most local works, including the harbor improvements made by the United States. This is about one foot above the lowest monthly mean of recent years and 1.26 feet below the mean level 1860-1914.

For general purposes the level of Lake Michgan should be taken as being somewhere between 581 and 582 feet. The heights of land in Chicago vary from 590 to 652 (Galewood) but the average may be placed at about 600 feet. The downtown section runs from 586 to 593 feet, feet. The to 593 feet.

Music room, fifth floor, Washington street entrance; open 9 a. m. to 5:30 p. m.; closed on Sunday.

Patents, documents and bound newspapers ratenes, occuments and bound newspapers room, first floor, Randolph street entrance; open 9 a. m. to 5:30 p. m.; closed on Sunday, Civics room, fourth floor, Randolph street entrance; open 9 a. m. to 10 p. m.; closed on Sunday

Reading room for current magazines, fourth floor, Randolph street entrance; newspapers, first floor, Randolph street entrance; open 9 a. m. to 10 p. m.; Sundays and holidays, 9 a. m. to 6 p. m.

General Information.

General Information.

The Chicago public library is a free public institution, established under the Illinois library law of 1872. It derives its revenue from an annual library tax of eight-tenths of one mill. A board of directors of nine members is appointed by the mayor, three annually for terms of three years. The library occupies the site formerly known as Dearborn park, bounded by Michigan avenue, Washington street, Garland court and Randolph street. The cost of the building was about \$2,000,000, including the furniture, book stacks and machinery. There are forty-five branches, seven There are forty-five branches, seven school branches, 194 traveling libraries high and deposit stations.

The right of drawing books from the public library belongs to all who reside in the city of Chicago, and also to those who make their homes in the suburbs within the limits of Cook county and are regularly employed in the city. In order to become a book borrower it is necessary only to file an application giving the essary only to me an application giving the name and residence of the applicant and bearing the signature of a second person, who must be an actual resident of the city, appearmust be an actual resident of the city, appearing as such in the latest city or telephone directory. This person becomes the guarantor to the library for the proper observance of the library regulations on the part of the applicant. These regulations merely provide that books drawn for home use must be returned within the stated period and must not be defaced or injured.

At the close of 1921 the public library con-

At the close of 1921 the public library conined 1,099,711 volumes. The aggregate tained 1,099,711 volumes. The aggregate circulation for the year was 7,472,768 volumes, which does not include the use of

books kept on the open shelves at the main library or its branches or the periodicals or newspapers used in the reading rooms.

\*Under construction in 1922.
The limit of height under a building ordi-

nance passed March 19, 1920, is 260 feet.

#### FREIGHT TUNNELS UNDER CHICAGO.

Underlying nearly all the streets in the central business section of Chicago are sixty miles of tunnels connecting the freight terminals of the railroads with commercial houses. The tunnels are provided with narrow gauge (2 ft.) electric railroads equipped with electric locomotives and steel cars. These are used chiefly motives and steel cars. These are used chiefly in transporting goods to and from railroad freight yards and in carrying coal to busi-ness houses. Excavated and waste material ness houses. Excayed and waste material from new buildings is removed through the tunnels and disposed of, permitting the work of construction to go on without interruption. In 1914 the Chicago Utilities company, which now owns the tunnel system, had in operation 117 electric motors and 3.000 coal, freight and other cars. In addition it had charge of some 24,000 telephones.

The original franchise for the tunnel system

was granted Feb. 20, 1899, to the Illinois Telewas granted rep. 20, 1899, to the limitor leteraphone and Telegraph company, which was organized in 1898 by A. G. Wheeler and associates for the purpose of establishing an independent telephone system. By an amendatory ordinance granted July 15, 1903, the company was given the right to construct and operate a subway system for the transportation of the construction ail matter, newspapers, packages and freight generally. The tunnels are 19 feet below city generally.

datum or 33 feet below the surface of the streets, the trunk line tunnels being limited in size to 12 feet 9 inches in width by 14 feet in size to 12 feet 9 mices in width by 14 feet in height, and the smaller ones to 6 feet in width and 7 feet 6 inches in height. Part of the tunnel system was put into operation Aug. 15, 1906, but the whole of it was not in use until Sept. 1, 1907.

The Illinois Telephone and Telegraph com-

The llinois Telephone and Telegraph company was succeeded in October, 1903, by the Illinois Tunnel company, which was followed in November, 1904, by the Chicago Subway company. The property of the Subway company and underlying concerns was acquired in April, 1912, by the Chicago Utilities company, the authorized capital stock of which is \$53,000,000.

#### TUNNELS UNDER CHICAGO RIVER.

Washington Street—Built 1867-1869; length, 1.605 feet; cost \$517,000; rebuilt 1909-1911. W. W. Kennedy, April, 1871.
Elmer Washburn, April, 1872.
Jacob Rehm, December, 1873.
Michael C. Hickey, Oct. 7, 1875.
Valerius A. Seavey, July 30, 1878.
Simon O'Donnell, Dec. 15, 1879.
William J. McGarijel, Dec. 13, 1880.
Austin J. Doyle, Nov. 13, 1882.
Frederick Ebersold, Oct. 26, 1885.
George W. Hubbard, April 17, 1888.
Frederick H. Marsh, Jan. 1, 1890.
Robert W. McClaughry, May 18, 1891.
Michael Brennan, Sept. 11, 1893.
John J. Badenoch, April 11, 1895.
Joseph Kipley, April 16, 1897, and April, 1899.
Francis O'Neill, April 30, 1901, and June 26, 1903.

1903. John M. Collins, July 26, 1905. George M. Shippy. April 15, 1907. LeRoy T. Steward. Aug. 4, 1909. John McWeeny. May 1, 1911. James Gleason, Nov. 3, 1913. Charles C. Healey, April 26, 1915.

POLICE OF CHICAGO.

Herman F. Schuettler, Jan. 11, 1917.

John J. Garrity, Nov. 25, 1918.

Charles C. Fitzmorris, Nov. 10, 1920.

The first heads of the Chicago police force were known as head constables. John Shridley served from 1839 to 1842. Then the title was changed to city marshal, those serving under that name being:

Orson Smith. 1842-1844.

Philip Dean, 1844-1848.

Ambrose Burnham, 1848-1852.

James L. Howe. 1852-1854.

Darius Knight. 1854-1856.

Cyrus P. Bradley, 1856-1858.

J. M. Donnelly, 1859.

Jacob Rehm, 1859.

Iver Lawson, 1860.

In 1861 the position was given the official title of superintendent of police. Cyrus P. Bradeley served from 1861 to 1863; William Tuttle from 1864 to 1866 and Jacob Rehm from 1866 to 1871.

1888-1892—Joel M. Longenecker, Rep. 1892-1896—Jacob J. Kern, Dem. 1896-1904—Charles S. Deneon, Rep. 1904-1908—John J. Healy, Rep. 1908-1912—John E. W. Wayman, Rep. 1912-1920—Maclay Hoyne, Dem. 1920....—Robert E. Crowe, Rep.

#### PRICE OF FOODSTUFFS IN CHICAGO.

The following table is taken from a report made by Arthur Young & Co., certified public accountants, showing the cost of food-stuffs in Chicago from 1910 to 1921, both inclusive. The quantities given are on a yearly basis for a family of five as set forth in The Daily News Cook Book, while the prices are on a monthly basis. The prices prevailing in January of each year were applied to most of the 214 articles of food named, but in many instances, such as those of fresh fruits and vegetables, the prices ruling in the months when these products were in season were used. Only the figures for the

years 1910, 1914 (the year when the world war began), 1921 and 1922 are given in detail here, but a summary for all the years is appended. This shows the total cost of all the meals for each year, the actual increase or decrease in such cost, the percentage of increase or decrease from year to year and the percentage of increase over 1905. The prices applied to the various articles are retail and were obtained from advertisements in The Daily News and other newspapers, catalogues of stores in the "loop district" of the city and from other available sources.

#### CHICAGO AS A FISH MARKET.

[From report of the bureau of fisheries, department of commerce.]

The bulk of Chicago's supply of fresh and frozen fishery products is derived from lakes in Canada, the great lakes and the north Pacific coast, while smaller quantities are received from every large fish-producing area in the United States and Canada, as well as from many areas of minor importance from many areas of minor importance throughout both countries. In addition to this a commercial fishery is conducted in Lake Michigan by Chicago fishermen for ciscoes, chubs and yellow perch, the catch of these species during the season of 1921 amounting to 1,250,000 pounds, part of which was sold smoked and part fresh, both to dealers and direct to consumers, the fishermen operating their own smokehouses.

Based upon the number of pounds sold, approximately 70 per cent of the Chicago trade proximately 70 per cent of the Chicago trade in fresh and frozen fishery products is confined to the following eleven species: Buffalo fish, carp, ciscoes, halibut, lake trout, pike or "jacks," salmon, whitefish, yellow perch, yellow pike and shucked oysters. With the exception of shucked cysters, none of these species is received from the Atlantic coast, despite its comparative nearness to the Chicago mental. caso market. The reason for this condition, as explained by local dealers, is that among consumers the general preference, aside from halibut and salmon, is for fresh-water varieties

The principal sources of supply of the species The principal sources of supply of the species of fish named are: Buffalo fish and carp, Minnesota, Illinois and Mississippi rivers, great lakes and other near by lakes and rivers; ciscoes, great lakes; halibut, Prince Rupert, Vancouver, British Columbia, and Seattle, Wash.; lake trout, great lakes; pike, "jacks," Minnesota and Canadian lakes; salmon, Prince Rupert, Vancouver, British Columbia, Seattle, Wash., and the Sacramento river California; Willies Vanocuver, British Columbia, Seatue, Wash., and the Sacramento river, California; whitefish and yellow perch, great lakes and canadian lakes; yellow pike, great lakes, Canadian lakes and points in Minnesota; oysters, New York, Maryland, Connecticut and Vir-

In addition to the eleven species sold in large quantities, a moderate demand exists

for thirteen others—namely, blue pike, bullheads, catfish, cod, haddock, red snapper, sauser, smeit, suckers, tuilibee, hard clams, oysters in the shell and shrimp. The blue pike come from Lake Erie; the bullheads from Iowa, Minnesota and Michigan; catfish from Okeechobee, Fla., Mississippi river and Michigan; fresh cod and haddock from Boston, Mass, the red snapper from Florida; the Michigan; fresh cod and haddock from Boston, Mass.; the red snapper from Florida; the sauger from Lake Erie and Lake Winnipeg; smelt from New Brunswick and Nova Scotia; suckers from the great lakes and near-by rivers; tullibee from Canadian lakes; clams from Maryland, Virginia and North Carolina; oysters from the Atlantic coast from Connecticut to Virginia, and shrimp from Florida and Georgia. cut to Virgand Georgia.

Consignments of frozen fish are generally moved direct to the public storages and there held until required for use. In the course of the year ended July 31, 1921, a total of 19,643,047 pounds of frozen fish were placed in Chicago cold storage warehouses while in Chicago cold storage warehouses, while 20,104,072 pounds were withdrawn, the quantity held over from the previous fiscal year amounting to 7,178,015 pounds. That Chicago depends extensively upon Canada for its supply of frozen fish is shown by the fact that in the year ended July 31, 1921, a total of \$25\$ couled were received from the country. while 272 were received from that country, while 272 were received from the United States. In the year named the carload arrivals of fresh and frozen fish (exclusive of oysters) at Chicago amounted to 798 cars, of which 399 were received by express and 399 by freight. There were in addition 195 carloads of oysters.

carloads of cysters. Fishery products were handled in 1921 either exclusively or as a major commodity compared with other foods by 222 Chicago firms, of which fifty-six were in the wholesale business exclusively, eighteen in both wholesale and retail and 148 in the retail trade exclusively. In addition there were several thousand butcher, grocery and delicatessen stores handling fish as a side line on Evideur.

#### FIELD MUSEUM OF NATURAL HISTORY.

President-Stanley Field.

Vice-Presidents—Martin A. Ryerson, Watson F. Blair, Col. Albert A. Sprague.

Director of the Museum and Secretary—D. C.

Davies. Auditor—B. Bridge.

Curator of Anthropology—Dr. Berthold Laufer, Curator of Botany—Dr. Charles F. Millspaugh, Curator of Geology—Dr. Oliver C. Farrington, Curator of Zoology—Dr. Wilfred H. Osgood, Curator Harris Public School Extension—S. C.

Simms. The Field Museum of Natural History, established in 1894 at the close of the World's Columbian exposition of 1893, is located in Grant park, near the lake, south of Roosevelt road extended. The building includes four stories and a clerestory. It is treated with a monumental order of Greek Ionic architecture, the principal fronts being about ninety feet in height. The material for the exterior is Georgia white marble and the frame of the seet in neight. The material for the exterior is Georgia white marble and the frame of the structure is steel, being divided into a large pedimented central partition and two long wings terminated by a smaller partition at each end. This order rests upon a stylobate and is crowned by a clerestow pioned with window. crowned by a clerestory pierced with windows. One of the principal features of the build-

One of the principal features of the building is the terrace (uncompleted) extending around the structure. This terrace will be forty feet wide and will rise six feet above the surrounding territory. It will have a retaining wall steps and balustrades of the same marble as the building proper. The entrances will be provided with an ample flight of steps leading up to the central doorways.

The interior of the building is 700 feet by 350 feet in dimensions, but with its exterior outer lines, including entrances and the uncompleted terrace, the structure covers about eleven acres of ground.

The great Stanley Field hall seventy feet

The great Stanley Field hall, seventy feet wide, 300 feet in length, and extending to the a distance of seventy-five feet, with a roof, a distance of seventy-five feet, with a grand stairway opposite the main entrance, divides the building east and west. From this hall, east and west, extend at right angles exhibition halls forty feet in width and 200 feet in length, these exhibition halls being again connected by transverse exhibition halls 45 feet in width and 320 feet in length, parallel to and adjoining the central hall and also at the east and west ends of the building. On the two main floors there are thirty of these exhibition halls.

thirty of these exhibition halls.

The first story, fourteen feet high, is devoted to the exhibition of the archæology of Egypt, the dramatic performances of the Orient arranged in geographical order, the division of taxidermy, to the installation of the Egyptian tomb and the exhibition of primitive lead and water transportation. It Egyptian tomb and the exhibition or primitive land and water transportation. It is used for the workshops of the mechanical force and for storage purposes. The first and second floors contain the exhibition halls and the administrative offices. The third floor is occupied by the curators and their assistants with large convenient spaces set aside for study collections and the herbarium. On this floor are also the general library and reading room, the departmental libraries, offices, well equipped laboratories, classrooms, illustration room, the departmental libraries, offices, well equipped laboratories, classrooms, illustration studios, photograph gallery, the printing shop, etc. The clerestory is intended for scientific and technical work of a more particular character, where light must be controlled and clear atmosphere preserved. It at the present time is used for the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the controlled and clear the co

used for storage purposes.

The museum is provided with a theater, accommodating 1,062 people, the main entrance to which is on the west side of the

building. This theater is known as "James Simpson theater." There is also on this floor to the north of the vestibule a lecture hall with a seating capacity of 250 persons. There are two classrooms or small lecture halls on the third floor, each of which will accommodate eighty persons.

eighty persons.

The building has been planned and designed to accomplish three purposes: First, the most perfect exhibition halls that could be arranged for the display of scientific collections; second, the adequate housing and equipment of the scientific working parts which belong with such collections; third, the construction of a building which would measure up to the highest standard of architecture and add the highest standard of architecture and add to the monumental appearance of the city.

The nucleus of the exhibition material was gathered by gift and purchase at the World's Columbian exposition. Most of this material, however, has since been rearranged, readapted nowever, has since been rearranged, readapted or discarded. Several departments created at the organization have been abandoned, until after a lapse of twenty-five years and the expenditure of approximately \$7,500,000 the museum is now divided into five departments—namely, anthropology, botany, geology, zoology and the N. W. Harris public school extension. Many expeditions for the purpose of obtaining study exhibition and exchange of obtaining study, exhibition and exchange material and data have been dispatched all over the world. The results of these expeditions are supported to the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the second of the tions, investigations and researches have been tions, investigations and researches have been published by the museum from time to time, which publications have been distributed to kindred societies and institutions both at home and abroad. An important contribution of \$250,000 by Norman W. Harris was announced in December, 1911, for the extension of the work of the museum into the public schools or Chicago. The plans for carrying out Mr. Harris' wishes were placed in operation in the spring of 1913. The museum has a working library of about 72.000 titles, an extensive exchange system, fully seum has a working library of about 72,000 titles, an extensive exchange system, fully equipped departmental laboratories, a herbarium of more than 720,000 sheets, study collections in mammals and birds reaching many thousand specimens, a large taxidermy section, a well equipped printing shop, illustration studios and assaying and lapidary rooms. In North American ethnology, in the world's mineralery in economic botany the world's mineralogy, in economic botany, the museum is particularly prominent, while its series of mounted mammals furnishes examseries of mounted mammals furnishes examples of advanced museum methods. The building is open to the public on all days except Christmas and Thanksgiving. An admission fee of 25 cents will be charged except on Thursdays, Saturdays and Sundays, when admission is free to all. Children are admitted free at all times. Professors, teachers and students in attendance at any recognized university college, school or institute. nized university, college, school or institute are also admitted free of charge upon presen-

are also admitted free of charge upon presentation of proper credentials.

The museum is incorporated under state law and the administrative control rests in a board of trustees with president, secretary, etc. The executive of the museum is the director, under whom there are five head curators with divisional assistant curators, preparators, etc. The entire museum records the accessions system, the historical files, publications and supplies are in charge of a publications and supplies are in charge of a recorder.

South Wells street: runs in a westerly direction to Wheaton, where one branch runs northwest

to Elgin and one southwest to Aurora; at Eola Junction on the latter branch a line runs to Batavia. Aurora and Elgin are connected by a line which runs as far south as Yorkville and as far north as Carpentersville. At Elgin connection is made with a line running to Belvidere and Rockford and from the latter place a line runs west to Freeport and another north to Beloit and Janesville. At Aurora a line runs northwest to DeKalb. The Aurora, Elgin & Chicago road is operated on

the third-rail system.
Chicago & Southern Traction—Terminal at 79th and Halsted streets; runs in a southeasterly direction to Chicago Heights and

Kankakee.
Chicago, Lake Shore & South Bend-Termi-Chicago, Lake Shore & South Bend—Terminal at Pullman; runs in an easterly direction to Michigan City and South Bend; connects at South Bend with interurban lines reaching various points in Michigan and Indiana.

#### CHICAGO PLAN COMMISSION.

The Chicago Plan Commission was created by the city council Nov. 1, 1909. Its member-ship of 328 consists of the mayor, the heads of the various city departments, chairmen of council committees, chiefs of various governmental bodies and one alderman (ex officio) from each ward, with the remainder of the personnel composed of citizens from every section of Chicago and representing every interest in the city's municipal life. Appointments to the commission are made by the mayor and confirmed by the city council. The commis-sion is permanent, nonpolitical, nonpartisan, nonsectarian and nonsectional. It is truly representative of the entire city and every element in it.

Mayor William Hale Thompson is president ex officio, Charles H. Wacker is chairman, Frank I. Bennett is vice-chairman and its headquarters in the Hotel Sherman (room F, phone Franklin 2120) are in charge of E. S. Taylor, office manager.

The Chicago Plan Commission was appointed for the purpose of studying the plan of Chicago created by Daniel Hudson Burnham and

Eagle Greated by Baine Hudson Burnham and E. H. Bennett under the direction of the Commercial club of Chicago.

In 1909 the Commercial club presented the plan to the city as a gift. The plan of Chicago is an all-Chicago plan. It proposes 200 miles of street widenings, extensions and immercements were street widenings. provements; a remodeling of the passenger and freight railroad and terminal facilities; freight railroad and terminal facilities; the creation of adequate harbors: rehabilitation of the transportation system; the park development along the shore of Lake Michigan; the establishment of an adequate new postoffice on the west side between the Northwestern and Union stations, where 62 per cent of all the mail of Chicago is handled, and the creation of a system of approximately 35,000 acres of forest preserves northwest and south of of forest preserves northwest and south of Chicago.

The thirteen years' work of the Chicago Plan Commission has resulted in assuring thirteen of the major features of the entire plan. These are either constructed or advanced in court or city procedure to the point where their real-ization is assured, public bonds having been voted where necessary. These thirteen projects

include:

The Roosevelt road (12th street) widening

and extension.

The Michigan avenue widening and extension The Michigan avenue widening and extension. The west side passenger and freight terminal plans, including widening the Polk and Taylor street viaduots; widening Canal street between Roosevelt road and Washington street and extending it via the two-level Kinzie street bridge to Orleans street, connecting with the new Franklin-Orleans street bridge; and the Monroe street bridge.

The south shore lake front plans, including the completion of Grant park, the extension of the Roosevelt road (12th street) viaduct to the Field Museum of Natural History. construction of the parkways to the southward and the South Park avenue widening and exand the South Fark avenue witching and ex-tension northward to Randolph street, making possible an outer drive connection between Grant park and the Lake Shore drive at the foot of the municipal pier, which project has already been considered favorably by the Lincoln and south park boards.
The Illinois Central railr

railroad terminal re-

The Illinois Central railroad terminal re-habilitation and electrification.

The widening of Western avenue.
The widening and opening of Ashland avenue.
The widening and opening of Robey street.
The extension of Ogden avenue from Union
park to Lincoln park.
The South Water street widening and twolevel connection with Michigan avenue.
The widening of Polk, Taylor, Clinton, Jeffer-

son and Desplaines streets in the district be-tween the river, Halsted street, Harrison street and Roosevelt road.

The acquisition of 24,086 acres of forest preserves by the forest preserve commission.

The improvement of the outer highway sys-

Early in 1921 the plan commission issued a list of eighty-seven street improvements that had been suggested for early realization. Prince of the commission of the commission issued a list of eighty-seven street improvements that had been suggested for early realization. nad been suggested for early realization. Principal among these are the Pershing road (39th street) improvement from Lake Michigan to the forest preserves at Riverside: the creation of an outer circuit of streets from Lake Michigan on the north via Peterson and Rogers avenues and the line of the old Indian bound. ary, southwest to the forest preserves along the Des Plaines river and returning again to Lake Michigan by 134th street, and the widening, opening, extending or improvement of section, half section and diagonal streets, especially in outlying sections.

The aim of the Chicago Plan Commission is two fold: First, to assure, maintain and develop the commercial prestige of the city, and, second, to provide humanitarian benefits for atll its citizens. Surrounding cities are competing for the business that now comes to Chicago and if Chicago is to maintain its commercial standing among American cities it must carry out the economic projects in the Chicago plan. By making it easier and cheaper to transact business, by supplying direct and easy means of communication between the several sections of the city, and by providing ample recreational facilities, the wealth, the health and happiness of every one in Chicago will be assured and constantly increased. Especially is this true in view of the enormous revenue that will be attracted to Chicago through the carrying out of Chicago plan projects, because both people and business will be drawn to Chicago thereby.

The Chicago Plan Commission is working in harmony with every organization in Chicago. It gives illustrated lectures before clubs, societies, etc., and upon application at its head-quarters literature can be secured covering the various features of its work in endeavoring to make Chicago the best most orderly, healthful, convenient and attractive city in America.

#### STATE AND SECTIONAL SOCIETIES IN

CHICAGO.
Chicago Colony of New England Women—President, Mrs. James A. Ostrom, 5514 Hyde Park boulevard; recording secretary, Mrs. Burt L. Kelly; corresponding secretary, Mrs. Wilbur H. Berd 5421 Weedlarm events.

Kelly; corresponding secretary, Mrs. Wilbur H. Ford, 5431 Woodlawn avenue. Hawkeye Club of Chicago (Iowa)—President, Cyrus K. Blake; secretary, Harry C. Ordway, 1454 Winnemac avenue. The Art Institute of Chicago was incorporated May 24, 1879, for the "founding and maintenance of schools of art and design, the for-mation and exhibition of collections of objects of art and the cultivation and extension of the arts of design by any appropriate means." the arts of design by any appropriate means. The museum building upon the lake front, first occupied in 1893, has never been closed for a day. It is open to the public every weekday from 9 to 5, Sundays from 12:15 to 9 p. m. Admission is free to members (now 13.000) and their families at all times and free to all upon Wednesdays, Saturdays, Sundays and legal holidays. Upon other days the entrance fee is 25 cents.

All friends of art are invited to become members. Annual members pay a fee of \$10 a year. Life members pay \$100 and are thenceforth exempt from dues. Sustaining members pay \$25 or more a year. Governing members are elected by the trustees and pay \$100 upon election and \$25 a year there-

Upon the payment of \$400 governing members become governing life members and are thenceforth exempt from dues. All re-ceipts from life memberships are invested and are themeson recipits from life memberships are the income only expended. All members are entitled, with their families and visiting friends, to admission to all exhibitions, receptions, public lectures and entertainments given by the Art Institute and to the use of the Ryerson reference library of art and Burnham library of architecture. Visitors desiring the modern guidance may to see the collections under guidance may make appointments with the museum instruc-tors at the office of the director. The in-The invested funds approximate \$3,000,000.

MUSEUM. The Art museum now ranks among the first three in the country. It contains excellent examples of the old masters and of the modern painters. There is also a large and comprehensive collection of sculpture, including reproductions of the work of the greatest sculptors, ancient and modern. There is an extensive collection of architectural casts. extensive collection of architectural casts. Other fields of art are represented by collections of etchings, engravings, textiles, oriental art, Egyptian and classical antiquities, period rooms, etc. There is a constant succession of passing exhibitions, sixty or more a year. All students enjoy the full use of the collections and the libraries. The number of visitors to the museum during the year ended Dec. 31, 1921, exceeded 1,000,000, not counting attendance of the students. tendance of the students.

SCHOOL.

The school of the Art Institute offers carefully planned courses of training for workers in the several arts, including drawing, printing arts, commercial art, painting, sculpture, designing, illustration and for teachers of the arts. All students have ready access to the museum collections for research work.

The school is conducted upon the most modern methods and has grown to be the most comprehensive and largest fine arts school in the United States. Distinguished teachers from a distance are called in from time to time. The faculty consists of forty teachers, not counting those of the Saturday classes. The

## THE BLATCHFORD QUALITY METALS

"NO. 1" STEREOTYPE METAL—AUTOPLATE METAL BLATCHFORD PERFECTION LINOTYPE METAL BLATCHFORD PERFECTION INTERTYPE METAL

ALL GRADES OF METAL FOR MONOTYPE—THOMPSON—LUDLOW—ELROD MACHINES

MANUFACTURERS OF THE BLATCHFORD PLATE MOUNTING SYSTEM

THE CHICAGO DAILY NEWS.

Chicago, November 9, 1922.

Messrs. E. W. Blatchford Company, 230 North Clinton St., City.

Gentlemen: We have used the Blatchford metals—stereotype, linotype and autoplate—continuously for many years, and with unform satisfaction. We believe them to be unsurpassed in quality.

Very truly yours,

VICTOR F. LAWSON, Publisher.

Manufactured Exclusively by

## E. W. Blatchford Company

CHICAGO

**NEW YORK** 

#### SUBURBS OF CHICAGO.

Including also towns and villages now within the city limits.

Chicago downtown railway terminals which are indicated in figures in parentheses: (1) Illinois Central, (2) Dearborn, (3) Grand Grand

The letters "N," "SW," etc., indicate the Central, (4) LaSalle, (5) Union, (6) North-general direction from the city hall. The western, (7) Aurora, Elgin & Chicago interfigures show the distance in miles from the urban, (8) North Shore interurban, (9) Chicago downtown railway terminals which are indicated in figures in parentheses: (1) interurban, (11) South Shore interurban.

#### POINTS OF INTEREST IN AND ABOUT CHICAGO.

North Side. Academy of Sciences museum in Lincoln park, Cemeteries—Graceland, Rosehill, Calvary, Daily News Sanitarium, Lincoln park, Fort Sheridan, near Highwood.
Grant, Lincoln, Schiller, Goethe, Field and other monuments in Lincoln park.
Historical society library and collection, Dearborn avenue and Ontario street.
Indian trail tree, near Glencoe.
Kinzie home tablet, Pine and Kinzie streets, Lake Shore drive.

Lake Shore drive.

Lincoln park conservatories and zoo. Municipal pier, foot of Grand avenue. Newberry library, Clark street and Walton place.

Waterworks, Chicago avenue, near lake, Wrigley building, Rush and Water streets.

South Side. Armour Institute of Technology, 3300 Federal

Art Institute galleries of paintings, sculptures and art collections; on the lake front, foot

of Adams street. Auditorium tower, Wabash avenue and Con-

gress street: view of city.
Board of trade, LaSalle street and Jackson boulevard: admission to gallery.
Boulevard link, Michigam avenue and river.

Cahokia courthouse on Wooded island in Jack-

son park.
Central Trust Company building, interior mural decorations, 125 West Monroe street.
Chamber of Commerce building (interior), LaSalle and Washington streets.

Chicago Normal school, 68th street and Stewart avenue

Chicago Temple, Clark and Washington streets. City hall, Washington, LaSalle and Randolph streets.

Confederate monument in Oakwoods cemetery. County building, Clark, Randolph and Washington streets.

Crerar library, Michigan avenue and Randolph street.

Douglas monument, 35th street and Ellis avenue.

Douglas monument, 35th street and Ellis avenue. Drexel, Grand and 55th Street boulevards. Field museum in Grant park, Grand Army hall in public library building, Randolph street and Michigan avenue. Great Lakes fountain, south end Art Institute, Iroquois theater fire, scene of, 28-30 West Randolph street; memorial tablet by Lorado Taft in Iroquois Memorial hospital, 28 North Market street.

Market street.

Jackson park, site of World's Fair in 1893.

Life saving station at mouth of Chicago river.

Lincoln wigwam tablet, Market and Lake-sts.

Logan statue in Grant park (lake front). Marquette building sculpture panels, Dearborn and Adams streets.

Marquette-Joliet cross, Robey street and drain-

age canal. Masonic Temple; view of city from roof.

Massacre monument in 18th street near the lake. Midway plaisance with Taft statuary. McKinley statue in McKinley park. Orchestra hall. 216-220 South Michigan avenue. Postoffice, on square bounded by Adams, Clark

and Dearborn streets and Jackson boulevard. Public library, Michigan avenue and Washington street.

Pullman suburb.
Republic statue—Jackson park.
South Water street; commission house district. State street department stores; shopping district.

Stockyards, Halsted and Root streets, Tower building, Michigan avenue and Madison street.

University of Chicago quadrangles, Ellis avenue and 58th street. Washington statue, Grand boulevard and 51st

street. Wooded island in Jackson park.

West Side.
Ashland, Humboldt, Washington and Garfield boulevards. Northwestern railway passenger station, Canal

and West Madison streets. Douglas park.

Drainage canal

Drainage canal.
Fire tablet (1871), 137 DeKoven street.
Garfield park.
Ghetto district on South Canal, Jefferson and
Maxwell streets; fish market on Jefferson
street from 12th to Maxwell.

Harmanket savan.

Randalyb and Desplains Haymarket square, Randolph and Desplaines

streets: scene of anarchist riot. Hull House, 800 South Halsted street.

Humboldt park.
Humboldt park.
Humboldt Leif Ericson, Reuter and Kosciuszko
monuments in Humboldt park.

Illinois Centennial monument—Logan square. Parental school, St. Louis and Berwyn avenues. Police monument (Haymarket), in Union park.

## INTERESTING FACTS AND FIGURES

In 1907, when the traction problems were solved by the so-called "Settlement Ordinances" (after the entire question had been submitted to a referendum vote of the residents of Chicago), a value was established by the City of Chicago through an independent valuing commission covering the properties as they then existed. The valuation established by the city, \$55,775,000, was more than \$30,000,000 below the value claimed by the companies and was reached by arbitrarily disregarding many millions of capital that actually had been invested in the properties.

To this 1907 valuation the city, under the ordinances, provided that the companies should add the amounts actually expended on capital account when authorized and certified by the Board of Supervising Engineers. These expenditures, covering track extensions and additions to equipment, brought the total purchase price as of January 31, 1922, up to \$160,610,561. This represented the figure at which the city might have taken over the properties if it had chosen to exercise its right at that date.

The companies pay to the city of Chicago for the privilege of operating their cars in the streets 55 per cent of their net receipts annually. This has amounted in fifteen years to approximately \$28,950,309.

During the year ended January 31, 1922, the Surface Lines carried a total of 1,333,762,409 passengers. Of these 750,515,622 were revenue passengers and 547,522,102 were transfer passengers. Out of each fare collected the companies pay out 5.603 cents for labor and materials alone. When taxes, bond interest, the city's 55 per cent, damage claims and other charges are paid there is left to the companies out of each fare a little over four-tenths of a cent.

A folder map of the city with points of interest and how to get there mailed free on request. Chicago Surface Lines, 105 S. LaSalle St.

#### Suggestions for Visitors.

Chicago, aside from its importance as a great business center, has numerous attractions which make it the ideal vacation city, and its location on the shores of Lake Michigan justifies its recognition as the ideal summer resort. The Surface Lines offer the most convenient transportation in Chicago.

Here are a few suggestions to the visitor who desires to become acquainted with some of Chicago's attractions and for the general information of those who would like to have a more comprehensive idea of what to see and how to see it.

MUNICIPAL PIER—Here is one of Chicago's newest and greatest wonders—a great recreation center and a steamboat landing extending 3,000 feet into the lake and costing about \$5,000,000. Here one may enjoy the cooling breezes of Lake Michigan while getting an expansive view of the city's sky line. There are many attractions on the pier itself during the season, including observation towers, board walk, children's playground, open air and inclosed restaurants, public dining room for picnickers and immense freight and passenger boat terminals. No one should miss this trip. Take through route No. 1 car in Wabash avenue, State street car in State street, Broadway car at Clark and Madison streets, Clark street or through route No. 22 car in Clark street, or Lincoln avenue car in LaSalle street; ride north to Grand avenue and transfer east to the lake. Cars operate on the pier.

CLARENDON BATHING BEACH—This municipal enterprise is one of the great attractions in Chicago. It is owned and operated by the city and should be visited by every one. Costly buildings beautify the premises. Ten thousand bathers can use the beach at one time, and even if one does not care to "take a dip" a pleasant afternoon can be spent here. Take through route No. 1 car in Wabash avenue or Broadway car in Clark or Randolph street, ride north to Sunnyside avenue and walk east to the lake.

CHICAGO'S GREAT ZOO—No collection of animals in the United States is more complete or interesting than the one in Lincoln park. Here are 1,700 specimens which are a continual source of delight to children and grownups alike. One cannot visit the "Zoo" too often. Take through route No. 1 car in Wabash avenue, Clark street or through route No. 22 car in Clark street,

Broadway car at Clark and Madison streets or Randolph street, or Lincoln avenue car in LaSalle street, ride north to main entrance of Lincoln Park at Center street.

#### CHICAGO'S WONDERFUL PARKS.

DOUGLAS PARK—Has many attractions, such as athletic field, flower gardens, boating facilities and natatorium. Take Roosevelt road car in Dearborn or Adams street, or Ogden avenue car in State or Randolph street, ride west to park at Roosevelt road and California avenue.

GARFIELD PARK—Has many attractions, including flower gardens, boating facilities, public golf course, largest conservatory in the United States, several statues. Take Madison street car in Madison street to park entrance at Central Park avenue.

HUMBOLDT PARK—Offers facilities for boating and other recreation and has some attractive statues. Take Division street car in State or Washington street and ride west to park at terminus of line.

JACKSON PARK—One of Chicago's most beautiful spots, on part of which was located the World's Columbian Exposition in 1893. Here are splendid boating facilities, a bathing beach, two public golf courses, flower gardens and a government life-saving station. Take Jackson park car or Stony Island-98d car in Wabash avenue to "Midway" at 59th street.

LINCOLN PARK—One of the city's most interesting attractions. See Zoo with 1,700 animals, Academy of Sciences, bathing beach and golf course near Diversey boulevard, conservatory, flower gardens, boating and other recreation facilities; also the world-famous Saint Gaudens statue of Abraham Lincoln. Take through route No. 1 car in Wabash avenue, Clark street or through route No. 22 car in Clark street, Broadway car at Clark and Madison streets or Lincoln avenue car in LaSalle street, ride north to main entrance of park at Center street.

WASHINGTON PARK—Offers facilities for boating and other recreation. Take Indiana-51st car in Wabash avenue and ride south to terminus at park, or take Cottage Grove car in Wabash avenue and ride south to 55th street entrance.

#### AMUSEMENT RESORTS.

RIVERVIEW PARK—A large amusement park with many attractions and space for picnicking purposes. Take Riverview-Larrabee car in Dearborn street and ride north to park at terminus of this line. Or take through route No. 2 car in

Clark street or Clybourn avenue car in Wells street, ride north to terminus at Belmont avenue and walk north two blocks to gate.

WHITE CITY—A large amusement park with many things to interest a visitor. Take Wentworth avenue or through route No. 2 or No. 22 car in Clark street, or take State street car in State street, ride south to 63d street and transfer east to park gate at South Park avenue. Or take Cottage Grove-71st or through route No. 4 or No. 5 in Wabash avenue, ride south to 63d street and transfer west to park gate at South Park avenue.

MADISON GARDENS—Those who enjoy roller skating can spend a very pleasant evening at Madison Gardens at the corner of Madison and Rockwell streets. There are special facilities for those who are learning, special instructors for ladies and children. An orchestra furnishes appropriate music. Take Madison street cars to the doors.

#### OTHER POINTS OF INTEREST.

ACADEMY OF SCIENCES—A noted museum of natural history having many interesting specimens. Open from 9 a. m. to 5 p. m. daily and 1 p. m. to 5 p. m. Sundays. Free. Take through route No. 1 car in Wabash avenue, or Clark street or through route No. 22 car in-Clark street, or Broadway car in Clark street, or Clark street, ride north to Lincoln park entrance at Clark and Center streets.

CHICAGO HISTORICAL SOCIETY—Depository of valuable historical documents and relics of Chicago's early days. Open daily 9 a. m. to 5 p. m., except Saturday afternoons and Sundays. Free. Take State street car on State street, or through route No. 1 car on Wabash avenue, ride north to Ontario street and walk one block west. Or take Clark street or through route No. 22 car on Clark street, ride north to Ontario street and walk east one block to Dearborn.

FIELD MUSEUM—One of Chicago's "seven wonders" is this costly collection of natural history material gathered from the remotest corners of the world. Its original home in Jackson park was the Fine Arts building of the World's Columbian Exposition of 1893. A permanent building to house this great institution has been erected in Grant park at a cost of \$4,000,000. The museum is open to visitors from 9 a. m. to 4 p. m. daily; free on Saturdays and Sundays.

CUBS' PARK—Home grounds of Chicago's National league team. Take Clark street or through route No. 22 car in Clark street and ride north to entrance at Addison street.

SOX PARK—Home grounds of Chicago's representative in the American Baseball league may be reached by taking Wentworth avenue or through route No. 2 or No. 22 car in Clark street. Ride south to 35th street and walk one block west to park entrance.

HAYMARKET SQUARE—This largest market for truck garden produce was the site of the anarchist riot in 1886. The activity of this place any weekday morning is worth watching. Take Ogden avenue car in State, Randolph or Lake street, and

ride west to Desplaines street. Or take Madison street car west as far as Desplaines street and walk north two blocks to Randolph street. A stroll for several blocks west through the market will be interesting.

### 110,000,000 CIRCULATION

OUTDOOR ADVERTISING is the one medium of publicity that has absolutely universal circulation. It reaches those who ride and those who walk; those who read, and those who do not; all creeds, all races, all classes.

It is used to convey a national advertiser's message to every nook and corner of the entire country; and it is used to concentrate the message of a local advertiser on the exact trading territory where his prospects are located.

> We shall gladly submit to any interested business man a built-to-measure plan for using
